

A photograph of two women sitting at a table, looking out a large window at a city skyline. The image is overlaid with a warm orange-red tint. The woman on the left has long dark hair and is wearing a light-colored top. The woman on the right has short curly hair, wears glasses, and a dark long-sleeved shirt. They are both looking towards the right side of the frame, where the window is. The city skyline is visible through the window, with buildings and a hazy atmosphere.

Our research

Research

We constantly conduct research as part of our work. If you'd like to work with us, [get in touch](#).

User research

Everything we do is centered around users. We have interviewed more than 300 people from 150 newsrooms in 30 countries. We've talked to frequent commenters, trolls, people who have been harassed out of the comments, and people who never comment.
